# ORANGE COUNTY GRAND JURY'S REPORT RECEIVED BY JUDGE WEST

## BELIEVES \$29,485 ANNUAL EXPENDITURE ON INDIGENTS CAN BE MUCH DECREASED

Thorough Work Indicated in Report  
Which Covers Many Offices, Build-  
ings and Departments

The Orange county grand jury yesterday presented its report to Judge West, and was discharged. The report, which is printed herewith, excepting some of the tabular matter, which will be printed tomorrow, shows that the grand jury covered a wide field of inspection. With O. H. Burke and Walter Gregg as expert bookkeepers, the grand jury examined the books of all county, township and city officers. Committees examined all public buildings, roads and bridges.

The proportions to which the indigent business of the county has grown was shown when the grand jury found that in the last year the indigents' care cost \$29,485.10, an increase of \$5,059.67 in two years.

The grand jury seems not certain that the expense is kept as low as possible under the present system. A county hospital and poor farm is urged as a necessity.

The grand jury was composed of A. S. Bradford, R. H. English, Jacob Walton, S. D. Winters, T. F. Tedford, Samuel Talbert, W. H. Johnston, W. D. Seeley, J. C. McDowell, J. R. Fletcher, F. L. Ainsworth, J. W. Flagg, W. C. Crawford, G. G. Williamson, R. C. Marques, F. Brooks, Harry W. Lewis, D. G. Cole and J. A. Nunn.

## ILLNESS HALTS NEILL'S EFFORTS

Engineers' President Declares  
Settlement Must be Made  
This Week

CHICAGO, Dec. 20.—The illness of Labor Commissioner O'Neill, who is conducting negotiations to avert the threatened strike of the engineers of sixty-one western railroads, delayed proceedings today. Following the announcement of Commissioner Neill's illness, President Stone, of the Brotherhood of Locomotive Engineers said: "I regret the delay but there are no changes in the situation. I am willing to wait a couple of days for Mr. Neill, but a settlement must be made before the end of the week or the railroads will have a general strike on before Christmas. The engineers are determined not to recede."

## RUINS YIELD LAST VICTIM

Eleven Is Death Toll of Awful  
Explosion—Nine More Have  
Small Chance for Life

NEW YORK, Dec. 20.—The body of the eleventh victim of yesterday's explosion was recovered today from the ruins of the New York Central power station. It is believed the death list is now complete. Of the injured, five are suffering from fractured skulls and have little chance of recovery. Four others are in a precarious condition with recovery doubtful.

An exhaustive inquiry into the cause of the disaster was begun today by the coroner and the municipal officials. The railroad company started an independent inquiry. For blocks around workmen are clearing away the wreckage. It is estimated the property damage will be a million and a half.

## MARTIN CAHEN WAS BEATEN TO DEATH

Masked Men Brutally Kill Him  
and Rob Him in Presence  
of Witnesses

LOS ANGELES, Dec. 20.—Although special officers were detailed to help detectives search for the men who beat Martin Capen to death, and robbed him of \$200 last night, no trace of the men has been secured. The city was combed this morning and several suspicious characters were taken to the city jail and detained pending a solution of the mysterious case.

## CAPEN BEATEN TO DEATH

IN SIGHT OF WITNESSES  
LOS ANGELES, Dec. 20.—Martin Capen, 29, son of Mr. and Mrs. Simon Capen, was killed in a desperate struggle with highwaymen near Third street and Grand avenue shortly after 11 o'clock last night. Guests at the Hotel Ems, at 321 South Olive street, witnessed the terrific struggle between Capen and the two footpads, who robbed their victim only after they had murdered him. Two hundred citizens joined with the police in a futile pursuit of the bandits, but at 3 o'clock this morning the police had not apprehended them.

**WEATHER FORECAST**  
Rain tonight or Wednesday. Light west wind.

Health Officer Seeks Way of  
Handling Milk Peddlers—  
Other City Business

The voters of Santa are to be asked to vote \$35,000 bonds for the betterment of the municipal water works system.

It has been known for some time that the increased population of the city and the increased demand for water at times was taxing the plant to its full capacity. A few months ago the city purchased a fine reservoir site on Olive street, it being an old brick yard pit.

Water Works Superintendent Ransom Reid stated last night that the reservoir would cost \$16,000, a new pump about the same amount and a new well about \$3000. The city ought to have them.

Thompson said that by frequent meetings bonds might be voted and sold in three months. He said that the city had been taking as profit from its water works about \$1000 per month, that the city should now furnish money for the making of a plant that will do Santa Ana for many years to come.

The decision of the trustees was to call a bond election, and provide the needed improvement.

**Milk and Beet Pulp**  
Dairies, clean and unclean, and beet pulp were subjects discussed before the city trustees last night by City Health Officer J. I. Clark.

As to the dairies, the city attorney said that was a matter of state regulation. As to beet pulp—its keeping within the city—the attorney thought an ordinance could be drawn to exclude it as a nuisance.

"Our milk supply is not what it ought to be," said Dr. Clark. "We have a lot of home cows, and indiscriminate milk peddling. If we can't do anything else we would like to make it necessary for them to take out a permit to sell milk. We could keep track of who is doing business, and make them give a clean supply. One man hauls milk into town, and takes garbage out in the same wagon, yet the city cannot stop him. I am sorry that the Santa Ana Jersey Farm is going out of business. It was the only dairy I could safely recommend."

"Recently a lot of beet pulp has been hauled into town, and a dozen complaints have come in from neighbors stating that the odor was so offensive they would have to have relief or move away. I will get this beet pulp out if the city attorney will support me."

Attorney Heathman stated that the whole subject of milk supply and dairy regulation is covered by the state law, under the supervision of the State Dairy Bureau, and the city cannot touch the matter in its laws.

McNaught—"Then we sit here with our hands tied?"  
Heathman—"Yes, sir."  
McNaught—"Even to making them take out permits to sell?"  
Heathman—"I can't say as to that."

Thompson—"If that is the way the state law, we ought to ask our legislator to have it changed."

Dr. Clark was appointed a committee to make a further investigation. As to beet pulp, Heathman said it might be classed as a nuisance. "It smells all the time," he said.

## HARD BLOW TO COAL COMBINE

Operating Company Handling  
Anthracite Output Hit by  
U. S. Courts

PHILADELPHIA, Dec. 20.—A death blow to the alleged combine whereby the Pennsylvania anthracite coal output is controlled by a coterie of financiers, was dealt this afternoon by the United States Court of Appeals when it issued an order practically dissolving the Temple Iron Company, through which the combine is alleged to have been worked.

The court decided that railroads and other companies, interested in the Temple Iron Company, shall not be permitted to vote their Temple stock or participate in the company's management. It is expected the decree will force the Temple Iron Company out of existence.

## CONGRESS AID NOT DESIRED

Kahn Asks to Withdraw Motion  
For Aid for Fair—Opposed  
by New Orleans Man

WASHINGTON, Dec. 20.—The spectacle of one congressman desiring to withdraw from the committee, a bill for a government appropriation of five million dollars for his constituency, and of another congressman opposing the motion, was presented today to the lower house, when Julius Kahn, of California, moved that the house committee be discharged from considering a resolution he introduced last December asking for Federal aid for the proposed San Francisco Panama Canal Exposition.

In making the motion Kahn declared San Francisco does not need government aid, having raised sufficient funds at home. Representative Wickliffe of Louisiana, representing New Orleans in the controversy, objected to the withdrawal motion. The men disputed viciously and the Californian's request was finally denied.

## MRS. TURNBULL WAS GRILLED BY McNAB

Took Stand When Baldwin Will  
Suit Was Resumed—Par-  
ried Questions

LOS ANGELES, Dec. 20.—The trial of the suit brought by Beatrice Anita Turnbull to break the will of "Lucky" Baldwin was resumed in Judge Rives' court today.

Mrs. Lillian Ashley Turnbull, the girls' mother who claims Beatrice is the daughter of an alleged contract union between herself and Baldwin, resumed the stand where she submitted to severe cross-examination by Gavin McNab. She parried volleys of questions shot at her by McNab and other defense attorneys. McNab referred to a letter alleged to have been written by the woman when she first came to California, and to a seduction suit she filed against Baldwin in San Francisco many years ago.

# REPORT FILED TODAY PROJECTS 127.85 MILES OF GOOD ROADS TOUCHING VARIOUS COMMUNITIES

Main Thoroughfares Through County  
Listed for Improvement—Oil Macadam Pavement is Proposed

The Orange County Highway Commission, composed of M. M. Crookshank of Santa Ana, W. H. Burnham of Orange, and Richard Egan of San Juan Capistrano, this morning filed its report and recommendations for a system of county highways with the Board of Supervisors. The commission has laid out a proposed system, and asks the supervisors to call a bond election to provide \$1,400,000 with which to build the roads.

The commission, with its engineer, D. S. Halladay, has laid out 127.85 miles of road for improvement, all of it by oil macadam except the Santa Ana canyon road from Olive to the Riverside county line. That section is down for improvement, but not by the use of oil macadam.

The report was not acted upon by the supervisors today, two of their number, Talbert and Linebarger, being absent, but advice was sought of the district attorney as to the procedure for calling an election.

A synopsis of the report, which was accompanied by a large map, showing the proposed road work, follows:

The commission recommends that 127.85 miles of road be improved. The roads are:

1. Riverside road, 15.51 miles, commencing on Main at Santa Ana's north line, go by Main and Chapman to Orange's west line. Commence at Orange's north line on Glassell, go by Olive and Santa Ana canyon to the Riverside county line.

2. Los Angeles road, 10.29 miles. Commence at Chapman and Main west of Orange, go by main road to Anaheim, then to Fullerton, then by Whittier road to Los Angeles county line, connecting with Whittier avenue, not paying inside city limits.

3. San Diego road, 32.55 miles. Commence at Santa Ana's east line on Main street of Tustin, by main traveled road through Irvine station, San Juan Capistrano to San Diego county line.

4. Buena Park road, 7.57 miles. Commence at Anaheim's west line, go three miles on Center street, north on Orangethorpe avenue, then through Buena Park and Northam to Los Angeles county line.

5. Cypress road, 4 miles. Join at corner of Center street and Buena Park road, go west four miles to Los Angeles, joining good roads.

6. Anaheim-Olive road, 3.37 miles. From Anaheim, go east on Center street by main traveled road to Riverside road.

Olinda road, 7.12 miles. Commencing at east end of Center street, on No. 6, go north, northeast, etc., by Placentia station and San Bernardino road to Olinda.

8. Garden Grove road, 7.81 miles. Commence on Fifth at Santa Ana's west line, go west to end of Fifth, then mile and three-fourths north, then west to Garden Grove, then north to Buena Park road.

9. Bay City road, 11.12 miles. From Garden Grove, through Westminster and Bay City to Los Angeles county line, joining Naples road.

10. Alamitos road, 4.19 miles. From Bay City road, go north and west by Los Alamitos to county line.

11. Huntington Beach road, 5.32 miles. Commence at northwest corner of section 12, township 5 south, range 11 west, go five miles south, then by Seventeenth street to north line of Huntington Beach.

12. Newport Beach road, 9.25 miles. From Santa Ana's south line on Bristol street, go by Old Newport, Berry

His books are very neatly and accurately kept and in balance with the auditor's books. Fees for teachers' certificates collected amounted to \$164 and have been turned to the county treasury.

**County Supervisors**  
We have examined all warrants allowed during the year from November 1, 1910, to November 1, 1910, and checked same with auditor's books. There has been allowed for county hospital and indigents \$29,485.10, an increase over last year's expenditure of \$2,856.56, and over two years ago of \$5,059.67.

We believe this large expenditure could be greatly reduced by more careful examination into the claims of the indigents and in every case require the indigents to swear to their claims.

We heartily endorse the recommendation of the last grand jury that a poor farm and hospital be provided.

We find the expenditures in the different road districts from November 1, 1909 to December 1, 1910, as follows:

This school is a credit to Orange county with their new building, 200 pupils and six teachers.

**El Toro**  
El Toro has one teacher who is well pleased with her surroundings.

**Diamond**  
The furnace is in need of repairs and the boys' toilet is unsanitary.

**Fairview**  
This school has no flag up on account of knots in the rope, the boys' toilet is in bad shape and the school house needs a thorough cleaning.

**Springdale**  
The boy's toilet is not clean.

**Talbert**  
Girls' toilet is in need of repairs; the yard should be graded to keep the water from around the building during wet weather and there should be a shed for the horses. There was no flag.

**San Joaquin**  
The waste pipe from the wash basin needs cleaning, the waste water is simply running out over the floor, which is becoming decayed. The boys' toilet is in very bad condition.

"Yes," said Blodgett, "day and night and on Sundays." Heathman said the law could be amended so that the keeping of beet pulp could be classed as a nuisance, leaving the exclusion of it in the jurisdiction of the health officer. The amendment will be ready for presentation at the next meeting of the trustees.

### Appointment Confirmed

The appointment of Mrs. W. B. Tedford as a library trustee by Mayor McFadden, was confirmed by the trustees. Mrs. Tedford takes the place of Mrs. Tillotson, resigned. A petition to make the sidewalk space on Spurgeon street from First to Second a uniform 12 feet was granted.

H. T. Metzgar and others north of Fifth near English and the river, petitioned the city to take some action to place bridges or culverts on Fifth street so that storm water may pass the street. The petition stated that a culvert in the swale was closed several years ago. Storm water backs up and does damage. It was suggested the city might be held responsible for the damage. The matter was referred to the city engineer for a report. Thompson said the land was not safe from overflow as long as the P. E. bridge remains as it is.

The petition of all the property owners on Eighth between Spurgeon and Main to make an oil street, at three cents a square foot, was granted, curbs and gutters to be put in, the intersection with Bush to be paved with Bush street.

A petition from John Bruns to abandon Buffalo avenue west of Broadway was referred to the engineer and attorney. The street is not used, but part of it shows on the maps.

The report of A. D. Swartzell, inspector of petrolium pavement, for petrolium pavement done, was in general to the effect that more oil was used than the specifications called for, and less rock screenings, but substantially the specifications were followed. The report was filed.

The resignation of E. W. Boynton as a city officer, to take effect Jan. 1, when he becomes a constable, was accepted. Henry Isenberg and Frank Gilbert were applicants for his position. Trustee McNaught said the marshal wanted Isenberg. Blodgett, McNaught and McFadden voted for Isenberg, and Thompson for Gilbert, Isenberg thus securing the appointment.

### Out of Fire Limits

A remonstrance to the establishment by the Santa Ana Lumber Co. of a small mill and yards at the northeast corner of Spurgeon and Second streets was read. It objected because of increased fire insurance rates, lowering of property values, etc. Blodgett, Thompson and McNaught favored the petition. McFadden said his objection was that the block is in the fire limits and the city ought not start any precedent granting such a petition. Tedford said his objection was on account of precedent. If the block was taken out the light would be different. Blodgett then moved to exclude the block from the fire limits. This motion carried. The company wanted to know if it could not get to work now, and the reply was that it would take a month to amend the fire limits ordinance, and not until then could a permit be issued.

Plans and specifications for crosswalks were adopted.

A plat of the Buckingham place was taken under advisement. McNaught stated that J. N. Ander-

son had criticised the city officers for not enforcing the sidewalk riding ordinance.

"Since April there have been forty-eight arrests," said McNaught, "of which twenty-two were fined and the rest acquitted. The officers have simply become disgusted with trying to enforce the ordinance. The responsibility is not with them."

Thompson said the city engineer had said his records could not be replaced for thousands of dollars, if burned. It might be well to have a fire-proof safe. McFadden said the county has no such safe-guard, and the city ought to stand it, too. The engineer asks to have the trustees talk it over as a committee with him.

For over three years I suffered much pain and annoyance from stomach disease. I had no help from my digestive organs apparently, and my food would stay in my stomach and ferment, causing gas; there was also a dizzy headache. I doctored and used every remedy that I heard of, but it remained for MI-ONA to cure me entirely. Before I had used three boxes, my appetite and digestive organs became all right. It is a wonderful remedy."

### EXPECTING THE IMPOSSIBLE

It is very evident from the tone of Secretary MacVeagh's report that he looks upon the statement by a distinguished Senator of his ability to save \$300,000,000 a year in the conduct of the government, as not only false but unfortunate. In this he evidently voices the feelings of all the departmental heads of the administration who, under the leadership of the president, have been doing all in their power to introduce the closest economy into all the business of the government. They have succeeded wonderfully well and have made a saving of many millions, but the mark set by the senator under the inspiration of his own oratory was so high it makes their best efforts look insignificant and seems to brand them as incompetent. The following paragraphs from Secretary MacVeagh's report explain their view of the situation very clearly:

"The popular impression as to the extent of possible economies in the administration of executive departments is singularly exaggerated and this misconception is very harmful. When the public expects that the government can save \$300,000,000 a year, such small, laborious savings as can be made in the executive departments hardly seem worth while. And it is astonishing that under such circumstances interest in these comparatively small savings can be maintained. These savings can only be disappointing to the public who have such figures as \$300,000,000 in mind; and they cannot receive any popular credit for they can only seem to be small trifling with great things. And yet they can only be produced by laborious, painstaking and persistent methods and devotion.

"When it is the fact that the entire ordinary expenditures of the government last year were less than \$660,000,000, and when a great part of those expenditures are not reducible at all, as, for example, the interest on the debt and the pensions, one can readily see that there is not very much more than the \$300,000,000 gross on which to save \$300,000,000. Now, to effect a saving of \$300,000,000 is, of course, not easy. I appeal to the sense of proportion of congress and the American people; for it is very important to have these impressions corrected in order that there may be some encouragement given to those men scattered through the departments who want to bring about all the improvement possible."

## RUEF'S LAWYERS SAY HE WAS NEVER FAIRLY TRIED

SAN FRANCISCO, Dec. 20.—Attorneys Drew, Murphy and Matson, for Abe Ruef, today petitioned the superior court for an appeal from the judgment and conviction of Ruef on the grounds that Ruef was never fairly tried. The attorneys, who appeared as Ruef's "friends in court," in their petition declared:

"The guilt or innocence of the defendant is of more importance than that he be legally convicted."

In an effort to show that the former "boss" was not brought legally to the penitentiary, the brief devotes a greater part of a hundred and one pages setting forth alleged violations of law in the conduct of Ruef's trial. Parts of the record are italicized.

Judge Lawlor is charged with bias, and Heney and Johnson with court misconduct. Ruef's guilt is not questioned, but the document is studded with a repetition of the phrase: "Is it law?"

An address made to the jury by Hiram Johnson, acting in behalf of Heney, who had been shot, is declared to have resembled the wild scream of a Marat to the French populace. Johnson is also severely criticized for alluding in his speech to the fact that Ruef had been compelled to confess his guilt in open court.

"Extraneous influences," principally the attempted assassination of Heney in the courtroom by Morris Haas, and the fact that the jurors heard the indignant shouts of the crowd, are declared to have ruined Ruef's chances for a fair hearing.

## IMMENSE TRAFFIC CROSSED PANAMA Isthmus IN 1910

WASHINGTON, Dec. 20.—Eighty-two million dollar's worth of merchandise originating in the United States crossed the Isthmus of Panama and Tehuantepec last year. Most of this merchandise was moved across the isthmus for the mere purpose of transferring it from one great section of the United States to another; from the eastern to the western coast or from the western coast and Pacific islands to the eastern coast.

All the foregoing work of pavement shall be done according to specifications for said work contained in specifications No. 37 entitled, "For the paving of streets in the City of Santa Ana," and plans, profiles and cross-sections all on file in the office of the City Engineer.

All the foregoing work of paving hereby described shall be done in accordance with the official grade of West Fourth Street on file in the office of the City Engineer.

That the Santa Ana Daily Register, a newspaper printed, published and generally circulated in said City, is hereby designated as the daily newspaper in which this Resolution of Intention and Notice thereof by the Superintendent of Streets shall be published.

## Prof. E. M. Nealey-On The Cost of Living

At the regular meeting of the President Day Club at the beautiful home of Mr. and Mrs. L. P. Hickox last evening, Mr. E. M. Nealey read a paper on The Causes of the High Price of Living. It was a masterly marshaling of facts and figures, lucidly and exhaustively analyzed.

Mr. Nealey proved to his own satisfaction at least, and to the satisfaction of most of his hearers, apparently, that neither the trusts, the tariff nor labor unionism, nor all of these together, is the cause of the 61 per cent increase in the cost of living since 1896. He showed that prices always are fluctuating, that whether they go up or down somebody always suffers therefrom; that the causes of fluctuation are many and mixed; that the principal causes of the alarming increase during the

past 14 years are the tremendously expensive wars of the world, the drift of population to the cities, the increase of gold production, adulteration of food products and thievery in their preparation and distribution, such as short weights, fancy packages, sale in small quantities, etc. (a species of predatory commerce); complex social systems and standards, extravagance, fashion's inexorable decrees, increased consumption of alcoholic liquors, etc., etc. Mr. Nealey's own opinion is that the increased production of gold is the most potent factor in the problem. He offered no remedy except those obviously suggested by the citation of the causes.

The paper was illustrated by an elaborate system of charts, and aroused much interest.

### IMPROVEMENTS AT VENICE

VENICE, Dec. 20.—The work of widening Windward avenue pier was begun today. Abbot Kinney is contemplating the erection of 100 new bungalows, the building of a new hotel and the construction of a row of new buildings to go into the tract now vacant on Windward avenue, to cost \$150,000. Amusement Promoter Fraser is also contemplating the expenditure of a large sum in improvements at the resort between now and next summer.

### POMONA FIXES PAY FOR MAYOR AND TRUSTEES

POMONA, Dec. 20.—The fifteen freeholders elected to frame a new charter for the city have agreed upon \$1200 as the annual salary for the mayor and \$300 a year for each councilman. At the session of the freeholders tonight the prohibition measures of the charter will be again considered.

### VENTURA GROWS COTTON

VENTURA, Dec. 19.—Judge Boling of this city has succeeded in growing a number of cotton plants in his garden from seed sent him from Missouri. The cotton is of fine fiber and is said by experts to be better and at least two inches longer in fiber than that grown in Imperial Valley. The cotton grew in a plot overlooking the sea and was given no especial care or attention. The specimen has been sent to the Los Angeles Chamber of Commerce.

## TAFT HEARD MOTHER'S PLEA FOR SON'S LIFE

WASHINGTON, Dec. 20.—Answering a mother's plea, President Taft today commuted to life imprisonment the death sentence of John Wynne, who was to have been hanged for the murder of A. F. McKinnon, on the transport ship Rosecrans.

Wynne crushed McKinnon's head with a hammer while the latter was asleep. Wynne was drunk. The commutation of sentence, in President Taft's hand-writing, says:

"Where the purpose to kill is formed in a drunken brain, his intoxicated condition rebuts the inference of premeditation that is necessary for murder in the first degree."

The substitute is calculated to supplant Mann's original amendment to the pure food law. There was a decided change made in the amendment after a conference with Chicago and New York business men.

## GOOD WORK IN THE SECTIONS

University Man Discusses Plan of Reorganizing School System

The Teachers Institute this morning met in sections, primary, grammar and high school. This afternoon a general session is being held at the First Congregational church. Two addresses are on the program, "The Fine Art of Teaching," by Rev. C. H. Seccombe, and "Life on the Open Sea?" by W. C. Crandall of San Diego.

Bruce Gordon Kingsley, the well known organizer of Los Angeles, is to give a lecture recital on "Wagner and His Music."

Yesterday Prof. W. Scott Thomas of the University of California discussed the proposed changes in the state school system, as indicated by experiments now being tried out at Berkeley. The plan is to concentrate the first six years of a child's school life on which may be considered essentials, such as reading, writing and arithmetic. That brings the child to the period at which he is most likely to drop his school work. The next step will be to interest him in going ahead into the larger work, the intermediate high school. The high school course is extended downward to meet the six-year lower course.

One feature of this plan is the thorough grounding in essentials, such as the public now believes the school fails to give.

Yesterday afternoon and this morning the section work proved very interesting and helpful to the teachers. The numerous subjects were discussed by experts, and the information for handling children is bound to result in good to the schools.

"In Primary Reading" Miss Kepple insisted that the plan that should be followed is to have the children read slower than is generally the practice. By that they learn to enunciate better, and comprehend what the words mean. In discussing reading before the grammar section Miss Kepple urged that lessons be made so short that there is no doubt but what the pupil understands what he is reading about. Then strive for expression.

County Horticultural Commissioner R. K. Bishop urged that in counties such as this that more attention be given to agricultural subjects in the common schools.

### QUARTER OF INCH OF RAIN IN STORM HERE

The rain of yesterday and last night varied greatly at different points. The fall in Santa Ana for the storm is .25 in.; with 1.25 in. for the season. At the San Joaquin ranch house the fall was .75 in., three times what it was here. At Aliso the measurements showed .21 in. and at the head of Newport Bay it was .28 in.

Glad to get what has come, still the ranchers would have it keep on coming for awhile.

### ALL RECORDS WERE BROKEN

Santa Ana Postoffice Yesterday Sold \$362 for Stamps,  
8200 One-centers

Yesterday was a record breaker at the Santa Ana postoffice, the stamp sales reaching the hitherto unapproached figure of \$362. Of this amount \$82 was received from the sale of 8200 one-cent stamps. All day long the letters and packages poured, but in spite of the enormous rush the system and conveniences of the office enabled the force, though hard pressed, to "keep up with the game," and everything was cleaned up at night in readiness for the next onslaught today. The general gaiety of the occasion to the postoffice force was further enhanced by registering 168 letters and parcels and issuing ninety money orders. Monday is always a heavy day for the carriers and yesterday two substitutes were added to the regular force of seven, thereby making the usual deliveries possible.

The estate is valued at \$10,000 and consists of property in the lowlands section. Williams & Rutan are attorneys for the petitioner.

### AMUSEMENTS

#### "The Man of the Hour"

It may seem strange to speak of "The Man of the Hour" as a play of laughter, in view of the seriousness with which it has been treated by the leading magazines of this country and Great Britain, and in view of the intense interest taken in it by the man at the head of great affairs, holders of important public office, artists, authors, clergymen, college presidents, etc.

But wonder in the matter will cease when it is recalled that its author, George Broadhurst, wrote the two great successes of American farce, "What Happened to Jones," and "Why Smith Left Home."

This new play of his is funnier than either yet, and it is regarded by critics as the best play of real American life yet written.

"The Man of the Hour" will be seen at the Grand Opera House on Thursday. Among the players presenting the play are: Mr. Harry English, Warren Conlan, Edward Keane, John Moore, John Morris, Clyde F. McCabe, Frank Kendrick, Franklin George, E. H. Felt, George Walters, Geo. A. Cameron, Frank Watson, Alfred Burns, and Misses Emma Naylor, Virginia Irwin, Florence Mack.

### A Wealth of Practical, Pleasing Gifts

"Give Something Useful" Is the Talk This Year

Bric-a-brac affords momentary pleasure; the useful present affords pleasure until the article is worn out. Let's help cut down the high cost of living by refusing to spend our hard earned money on knick-knacks. In other words, let's be sensible and give something useful.

These Remembrances are Always Pleasing and Acceptable

### "But a Fur Is the Best Of All"

Because if you get a good fur, it will last for years and give comfort and pleasure all that time. A fur not only affords a woman "that luxurious feeling" but affords an immense amount of comfort, for it protects the throat and upper chest just where the coat cannot. On a frosty morning or a damp evening, a fur feels mighty good; ask any woman who wears one.

If you decide upon a fur as the present, let us show you our line; we have the largest and most complete and up to date assortment in the city, in every style you want, muff sets, cape effects, stoles, collarettes, boas, and separate muffs at prices to suit all tastes and pocket books.

Streets to Palace Guarded—  
Mexican Ruler Rumored in  
Fear of Assassination

MEXICO CITY, Dec. 20.—The streets leading to the presidential palace have been closed by guards and this fact has led to the belief that President Diaz is critically ill. The rumor has gained circulation despite official denial.

It has been learned authoritatively that Diaz fears assassination and has ordered the palace approaches closed. All the food for his table is tasted before he partakes and the Mexican president changes his sleeping room night-ly.

and This Coast

WASHINGTON, Dec. 20.—Secretary of State Knox is confronted with the problem evolving plans for a treaty which will not offer an affront to Jap-an and at the same time pacify the in-habitants of the Pacific Coast.

The present treaty which was rat-ified in 1894, expires in June, 1911. It is expected both parties will demand changes in the new instrument, Japan demanding an abolition clause curtail-ing Japanese immigration.

LONDON, Dec. 20.—A crisis in Ul-ster as the result of the Liberals' re-turn to power, is indicated in the dis-patches from Ireland this afternoon.

Opponents of Irish home rule as a part of the Liberal program for the coming parliament, have subscribed \$50,000 for warlike measures. Bids for rifles and ammunition have al-ready been asked. It is generally ad-mitted that trouble will follow the granting of home rule.

## SENTENCED TO SAN QUENTIN

Harry Bancroft, one of the burglars who stole fountain pens from Bird's Book Store at Orange, was sentenced to fifteen months in San Quentin. Sentence was pronounced this morning by Judge West. H. C. Sanders, aged 20, who was with Bancroft, will probably escape the penitentiary. Judge West has caused telegrams to be sent to the boy's mother in St. Louis, Mo., and the mother has agreed to pay the boy's transportation home. The court will probably order Sanders to go there.

## RECALL FOR MAYOR GILL OF SEATTLE PETITIONED FOR

SEATTLE, Dec. 20.—A petition de-manding an election to be held to de-termine the recall of Mayor Hiram Gill was filed today with the city comptroller. 11,202 names were at-tached, of whom 631 are qualified women voters. Only 8,670 names are re-quired to make the recall operative. The petition will be guarded at the city hall by members of the Public Welfare League, an organization start-ing the recall movement.

## LORIMER CLEARED FROM BRIBERY BY SENATE COMMITTEE

WASHINGTON, Dec. 20.—The re-port exonerating Senator Wm. Lor-imer of Illinois, from the charges that he obtained his election through legislative bribery, was formally adopted today by the Senate com-mittee on privileges and elections. The committee instructed Chair-

man Burrows to submit a report along the lines of the report made by the sub-committee conducting the investigation. Burrows probably will finish his report tonight. It is not known whether or not it will be unanimous.

PINE BLUFF, Ark., Dec. 20.—Ar-thur Murphy, editor of the Daily Eagle, a relative of General Arthur Murray, U. S. A., is dying, and Ed and Gus Lelaurn are in jail as a result of a shooting affair in which a family feud is believed to have been the mo-tive.

Murphy was shot through the head, the Lelaurns, who are brothers, after-ward surrendering to the police.

One room with sixty pupils, the other with thirty-two. The rooms are small and the desks so crowded that it is almost impossible to pass through the room. The building is too old to be enlarged, therefore we think they need a new building and need it badly.

The building is in good shape and plenty of room. At the high school we found all in good shape, with 70 pupils and 6 teachers.

## TO THE PEOPLE WHO ARE READERS

### ...OF THIS... PAPER

During the past three days I have been offering a full bearing orange grove for \$250 per acre with positive proof that this \$250 would be all the grove would ever cost you.

This was the most remarkable offer ever made to the people of California, yet only two men bought. No doubt hundreds saw the ad but thought it was too good to be true, so did not take time to investigate and thus lost the chance of a life time.

Now I give all such persons fair warning that I have a large grove all in full bearing which can be bought in lots to suit purchaser for one-fifth down, balance to come out of crops. You missed the other opportunity—don't miss this. Call and ask about the property. It will take only a few minutes and costs nothing.

**E. L. WEBBER**

room. Toilets dilapidated and should have new ones.

**La Habra**  
Building in need of painting, also blackboards poor, but the principal informs us that both will be attended to shortly.

**El Modena**  
The stove in the primary room in bad condition and should be attended to immediately. Blackboard in fifth and sixth grade rooms have a glossy finish and are unsatisfactory.

**Orange**  
At the high school we recommend sanitary drinking fountains instead of the ones at present in use. Otherwise, the schools in Orange are in good condition.

**Anaheim**  
The high school in good condition. The Central school in good repair but crowded for room. The Primary building in good condition, except the fire hose is leaky and would be worthless in case of fire.

**Olive**  
Toilets need attention as their condition is very poor and unsanitary.

**Peralta**  
Building in good condition except that it is badly in need of painting. Also the flag pole is missing. Attention was called to it last year, but neglected.

**Yorba**  
Building in fair condition. Arrangement of heating stove in primary room is unsatisfactory as it is stationed in one corner of the room and very little heat derived from it. Blackboards in poor shape; also seats for primary scholars are very uncomfortable as they are altogether too large and should be attended to at once.

**Villa Park**  
Everything in and about the school seems to be in good condition. It is one of the best disciplined schools in the county.

**Placentia**  
Building is in need of painting, otherwise in fair condition.

**Katella**  
We find this building has no water piped to the building, but with very little expense the connecting pipe could be put in, making it more convenient and giving better fire protection.

**Cypress**  
Blackboards in need of attention. The school has a flowing well on the grounds as a water supply, but no way of shutting off the water. Consequently a large mud hole has formed. This is a case of negligence. Stove in a poor position for heating rooms; also there is no damper in stove pipe and most of the heat escapes through the pipe.

**Loara**  
Blackboards and windows badly in need of attention. Otherwise the building is in good shape.

**Fullerton**  
Grammar and primary are both in good condition. The high school students and the polytechnic building, tents and the polytechnic building. They are a little crowded but under the circumstances have managed well and have proven themselves equal to the occasion.

**Olinda**  
The building is new and up-to-date in every respect but will need more room within another year.

We find Alamitos, Westminster, Ocean View, Newhope, Delhi, Newport Beach, Serra, Bolsa, Magnolia, Centralia, Orangethorpe and Randolph schools to be in good condition.

The jail at Newport Beach is not in first class condition. There should be some wire screens put over the bars to keep out the rats which have taken possession and are eating the bedding.

Fifth street bridge needs repairs immediately as some of the piles are so decayed that high water would break them off. We suggest that as a pile driver is near there, the work be done soon.

Seventeenth street, from English street to the river, and Berrydale street from one mile north of Seventeenth street to the Anaheim road are in very bad shape and need repairs, especially as a mail route is over this road.

We would recommend a bridge

across the river at Seventeenth street to accommodate the people should anything happen to the one at Fifth street. As it is now, should Fifth street bridge be closed the one at Chapman street is the nearest one across the river.

The road between Hines' corner and Brookhurst is in bad condition and we would recommend that it be graded and oiled and a bridge built across the wash.

Roads in general are hard, but rough.

#### LOS ANGELES PRODUCE MARKET

Business opened with a rush yesterday morning on the local markets. A big demand was occasioned by the many orders that came in over Sunday by letter, telegram and in the morning by telephone. There were few changes with the rush as far as quotations were concerned. A firmer market in apples was reported with very heavy inroads on the stock in storage and immediate use of all the apples that are still coming in. The movement of this fruit so far has surpassed the movement last year. Prices have not been quite as high, but profits are easily proportionate on account of the lower original cost of the fruit. Bellefleur apples are selling today at \$1.25 to the trade that last year would have brought 10 cents more. Red apples are all a trifle lower, but dealers are not complaining at all and expect that the end of the season will see them as high as last year and none left when the first new apples arrive to be sent to the dump. Receipts of apples yesterday were 732 boxes.

Egg receipts were 124 cases. The demand for eggs was very good and case count sold at 34 to 35 cents a dozen. Petaluma storage eggs were sold at 33 cents a dozen. The market on storage stock has so far not been affected by the decline in local eggs. Butter arrivals were 13,518 pounds. The New York market was quoted 30 1/2 cents and San Francisco at 24 1/2 cents. The demand was good and the feeling very firm, some dealers obtaining 36 cents for extra fancy stock which is listed at 35 cents. Ladies sold freely and some country butter was sold at 21 cents.

Northern fresh, Swiss and Edam were good sellers on the cheese list. Receipts were only 1240 pounds. There were no changes and the offerings were rather light.

Highland potatoes have been weak on account of the large stock held by local dealers. As a result the price has declined to \$1.60 in wholesale trading. Local white rose are arriving and the demand for the new potatoes is very good. The dealers are asking from \$1.85 to \$2 on the stock. Receipts of spuds were 2975 sacks.

There were no reported arrivals of onions. Australian brown sold freely. No bean receipts were published. Lady Washingtons and small whites were the best sellers. Sweet potato arrivals were 109 sacks. The demand

was good. Grapes were in very good call. Raspberries were also a feature for fancy trade. Strawberries sold as high as 15 cents, although the average was nearer 12 cents. Guavas were held up to 7 cents a basket.

Barracuda were the chief fish arrivals of the morning. The call was for fancy northern fish. A few rock bass, some salmon and cat fish were received. Oysters were also in big demand.

## FOR SALE—MISCELLANEOUS

## GRAND JURY'S REPORT

(Continued from Page 10)

correspond with the vouchers.  
Anaheim

The books of the clerk and treasurer are neat and correct and check with the warrants issued. The books of the justice are correct and in good order.

Fullerton

We found that in some respects the books are in fair condition but the accounts were not entered after October 1, 1910. The justice's and recorder's accounts in good shape.

Orange

We found the books to be in very good condition and kept very neatly. The accounts between the clerk, marshal and treasurer were checked and found correct.

We would recommend that the county treasurer furnish to the secretaries of the various drainage districts statements of the condition of their funds in his hands on December 1, 1910, so that they may be able to keep their accounts to correspond with his.

Whereas previous grand juries have annually called attention to the condition of the closets in the outside schools, we would recommend that the directors be asked to give more attention to the sanitary condition of the same.

We would also recommend that the county road that runs along the south line of section 27, township 5 south, range 10 west, S. B. B. and M., be so changed at the point where said section line intersects the East line of the Rancho Los Bolsas that it continue south of and adjoining the right of way of the Pacific Electric instead of crossing the same twice, as it does at present, and the supervisors are hereby requested to procure a right of way and change said road in accordance with the above recommendation.

And we further recommend that a bridge be placed across the channel of the Santa Ana river where the road along the south line of section 28, township 5 south, range 10 west, S. B. B. and M., crosses the channel.

We would respectfully recommend that our representatives in the Assembly and Senate of the state legislature would take such steps as would be necessary to secure the enactment of such legislation as will give the district attorney, when he believes that a crime has been committed within his county, the power to subpoena witnesses before any justice of the peace or magistrate for the purpose of taking down and perpetuating the testimony of any witnesses who may have any knowledge of any such crime; and that such measure provide all necessary means and processes to be supplied to the district attorney for carrying out the proposed measure.

And, further, that such amendments or legislation may be enacted as will require all public service corporations, private corporations or individuals on the demand of any prosecuting officer of the county or municipality to give such information as they may have in their possession which will assist in the detection of crime or facilitate the apprehending of criminals.

Respectfully submitted,  
A. S. BRADFORD, Foreman.
